DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 04/30/2004 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 2-3, 19, and 33-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Tallarida (U.S. 6,520,964). See previous office actions.

5. Claims 13-14, 16, are rejected under 35 U.S.C. 102(b) as being anticipated by Sertich. Please refer to previous office action.

Response to Arguments

6. Applicant's arguments filed 04/30/2004 have been fully considered but they are not persuasive. Claim 21 despite amendment is still drawn to a non-elected species.

As noted in the interview between applicant and examiner on July 20, 2004, claim language remains broad. Functional language has no bearing in the instant case on the patentability of the subject matter. Applicant's claims boil down to male and female connectors that are snap-fit together. As discussed in the interview, Tallarida and Sertich may differ from the Applicant's invention, however, based on the *claim language*, the aforementioned prior art reads upon the invention in the broadest reasonable light.
